

September 2021 Recreation & Parks Commission Report

Consent Agenda Items

1. COAAA Grant Match Transfer 2021 (2102-2021)

Project History/Background: This ordinance will authorize the Director of the Recreation and Parks Department to transfer of \$182,489.00 from the Recreation and Parks Operating Fund to the Recreation and Parks Grant Fund for a Title III-A Project Grant match.

COAAA receives Federal Title III funds awarded from the Older American's Act. Title III grants include IIIA, IIIB, IIIC, IIID, and IIIE. The IIIA portion is awarded exclusively for Area Agency on Aging administrative expenses. The other Title III grants are primarily used for services provided to clients who are over 60 years of age. As a designated "Area Agency on Aging" the COAAA is earmarked to receive these funds on an annual basis. The funds originate at the federal level and are passed to the Ohio Department on Aging, who then passes the funds to the 12 "AAA's" in the State of Ohio. There are over 500 "AAA's" in the United States.

The Department of Recreation and Parks, on behalf of the City of Columbus, is obligated to pay a portion (a match) of the Title IIIA Grant which includes salaries of certain employees of the COAAA. The ordinance will authorize a transfer of funds from the Recreation and Parks Operating Fund to the COAAA Grant Fund.

Principal Parties: No vendor or individual business relationship will be established by this legislation.

Fiscal Impact: \$182,489.00 is being transferred from the Recreation and Parks Operating Fund 2285 to the Recreation and Parks Grant Fund 2286.

Benefits to the Public: By receiving these funds (\$182,489) the COAAA will be able to comply with the required local match to receive \$415,759 in Title IIIA funds for 2021, and an additional \$289,659 in Title IIIA-CARES funds for 2021 (\$705,418 in total).

Master Plan Relation: These funds supports the mission of the Recreation and Parks by enhancing the quality of life of our citizens.

2. Ohio Arts Council Grant 2021 (2307-2021)

Project History/Background: This ordinance will authorize the Director of Recreation and Parks to accept a sustainability grant in the amount of \$27,114.00 from the Ohio Arts Council for funding to support Cultural Arts Center Arts Programming.

The Cultural Arts Center is central Ohio's premier visual arts center, presenting innovative exhibitions, classes, workshops and more in an immersive creative environment. The center offers a wide variety of in-depth, hands-on art classes to adults (18 years and older) from beginner to advanced. Classes are led by accomplished artists in fully equipped studios.

Fiscal Impact: This ordinance will authorize the appropriation of \$27,114.00 in grant funds in the Recreation and Parks Grant Fund 2283. This ordinance will also authorize a grant match of \$27,114.00 from the Recreation and Parks Operating fund 2285. \$27,114.00 is budgeted and available in the Recreation and Parks Operating Fund 2285 to meet the financial obligations of the grant match and contract. There is a total of \$54,228.00 available for this project.

Emergency Justification: An emergency is being requested so the grant funds can be received prior to the beginning of 2021 Fall programming.

3. COAAA - Continuation of Services (2291-2021)

Project History/Background: This legislation is to appropriate continuing grant funds from the Ohio Department of Aging (**Title III programs, Home Energy Assistance Program (HEAP), State Block Grant, Volunteer Guardian Program, and Medicare Improvements for Patients and Providers Act (MIPPA)**); Franklin County Office on Aging (**Franklin County Senior Options Program**); and U.S. Department of Housing and Urban Development (**Congregate Housing Subsidies Program**), as administered by the Central Ohio Area Agency for the balance of 2021 and for 2022.

Fiscal Impact: The fiscal impact of this ordinance will be to reduce the Recreation and Parks Grant Fund's an appropriated balance by \$13,038,500.00. This appropriation will enable the Recreation and Parks Department to continue those programs as required by the granting agencies for the balance of 2021 and 2022.

Emergency Justification: Emergency action is requested in order to continue services beyond December 31, 2021, without service interruption as stipulated in the various grant requirements.

Benefits to the Public: Appropriation is needed to continue to provide staffing and services for the remainder of 2021 and 2022. COAAA programs provide services to 8 counties in central

Ohio (Franklin, Delaware, Fayette, Licking, Madison, Pickaway, Union, and Fairfield).

Number of residents served: Approximately 25,000 consumers receive some type of assistance through the above mentioned programs.

Master Plan Relation: This project supports the mission of the Recreation and Parks by enhancing the quality of life of our citizens.

Administration Agenda Items

4. Street Trees Fall 2021 CDBG (2038-2021)

Project History/Background: This ordinance is to authorize the Director of the Recreation and Parks Department to enter into contract with Custom Lawn Care & Landscaping, LLC for \$152,875.00 (incl. \$14,000.00 contingency) for the installation of 505 street trees, funded by the Community Development Block Grant (CDBG).

This project will be installing trees in the Milo-Grogan and Southwest Communities through a Community Development Block Grant (CDBG) to help replace tree species that have been removed throughout the city due to tree mortality and to plant trees where none previously existed. The new tree plantings will represent a diverse species of trees selected specifically for each planting location. It takes into consideration the specific site restrictions that each location has in an effort to replace some of our lost Urban Tree Canopy and reduce storm water run-off in the area while not interfering with nearby utilities or structures.

Bids were advertised through Vendor Services, in accordance with City Code Section 329, on August 13, 2021, and received by the Recreation and Parks Department on August 31, 2021. Bids were received from the following companies:

<u>Company</u>	<u>Status</u>	<u>Amount</u>
Custom Lawn Care & Landscaping	MAJ	\$138,875.00
Greenscapes Landscape Co.	MAJ	\$148,722.50
DLL Landscape	MAJ	\$253,351.43

After reviewing the proposals that were submitted, it was determine that Custom Lawn Care & Landscaping, LLC was the lowest and most responsive bidder.

Principal Parties:

Custom Lawn & Landscaping, LLC
2411 SR 22 SW, Washington Court House, OH 43160
Kyle Reed, 740-333-1169
Contract Compliance Number: 31-1747937
Exp. Date: 2/26/23

Fiscal Impact: This legislation authorized the expenditure of \$152,875.00 (incl. \$14,000.00 contingency)

\$138,875.00 Base Scope of Services
\$14,000.00 Contingency
\$152,875.00 Total cost for the project

Emergency Justification: Emergency action is requested as tree planting has specific periods of time when it is most beneficial to plant trees.

Benefits to the Public: These plantings will increase the Urban Tree Canopy which reduces storm water runoff, reduces utility costs to nearby homes and businesses, and reduces air pollution.

Area(s) Affected: Milo-Grogan and Southwest Communities

Master Plan Relation: This project supports the departments Master Plan by planting trees intended to both replace and add to the City of Columbus' urban tree canopy. It will be adding to the total overall canopy levels and is helping to replace trees lost due to construction damage and other causes of tree mortality.

5. Street Trees Fall 2021 CIP (2309-2021)

Project History/Background: This ordinance is to authorize the Director of Recreation and Parks Department to enter into contract with Custom Lawn Care & Landscaping, LLC for \$308,800.00 (incl. \$28,000.00 contingency) for the installation of 1040 street trees throughout the City of Columbus.

This project will be installing trees in numerous Columbus Communities and in all Forestry Planning Areas to help replace tree species that have been removed throughout the City due to tree mortality and to plant new trees in areas that previously did not have trees. The new tree plantings will represent a diverse species of trees selected specifically for each planting

location. It takes into consideration the specific site restrictions that each location has in an effort to replace some of our lost Urban Tree Canopy and reduce storm water run-off in the area while not interfering with nearby utilities or structures.

Bids were advertised through Vendor Services, in accordance with City Code Section 329, on August 13th, 2021 and received by the Recreation and Parks Department on August 31, 2021. Bids were received from the following companies:

<u>Company</u>	<u>Status</u>	<u>Amount</u>
Custom Lawn Care & Landscaping, LLC	MAJ	\$280,000.00
Greenscape Landscape	MAJ	\$306,280.00

After reviewing the proposals that were submitted, it was determine that Custom Lawn Care & Landscaping, LLC was the lowest and most responsive bidder.

Principal Parties:

Custom Lawn & Landscaping, LLC
2411 SR 22 SW, Washington Court House, OH 43160
Kyle Reed, 740-333-1169
Contract Compliance Number: 31-1747937
Exp. Date: 2/26/23

Area(s) Affected: City wide

Fiscal Impact: This legislation authorizes the expenditure of 308,800.00 (incl. \$28,000.00 contingency) funded by CIP.

\$280,800.00	Base Scope of Services
<u>\$28,000.00</u>	<u>Contingency</u>
\$308,800.00	Total cost for the project

Emergency Justification: Emergency action is requested as tree planting has specific periods of time when it is most beneficial to plant trees.

Benefits to the Public: These plantings will increase the Urban Tree Canopy which reduces storm water runoff, reduces utility costs to nearby homes and businesses, and reduces air pollution.

Community Input/Issues: The majority of the trees being planted during this contract have

been requested by the property owners where the trees are being planted or at locations where trees had been previously removed for varying reasons.

Master Plan Relation: This project supports the departments Master Plan by planting trees intended to both replace and add to the City of Columbus' urban tree canopy. It will be adding to the total overall canopy levels and is helping to reduce storm water runoff, heat-island effects and replace trees lost due varying causes of tree mortality.

6. Schmidt Hospitality Concepts Concession Contract Mod.- Raymond Memorial (2310-2021)

Project History/Background: This ordinance is to authorize the Director of Recreation and Parks to modify the existing contract with Schmidt Hospitality Concepts (SHC) for food concessions/catering at Raymond Memorial Golf Course. This contract is a revenue generating contract for the Golf Division and the contract was for two (2) years: 2020-2021 with the option to renew for 2 additional years.

Annual rent payment for 2021 on the original contract is \$80,000 plus 10% of gross sales over \$375,000. This rent is based on the availability of the rental facility being operated by SHC and them collecting the revenue for the rentals. With the COVID-19 pandemic still greatly affecting rentals at the golf course, we are asking to adjust their rent for the next 2 years. The proposed new rental fee structure would be as follows:

- 2021- \$60,000 and 10% of gross sales over \$200,000.
- 2022- \$60,000 and 10% of gross sales over \$200,000.

Principal Parties:

Schmidt Hospitality Concepts
3895 Business Park Columbus, OH 43204
Andy Schmidt

Area(s) Affected: Raymond Memorial Golf Course

Fiscal Impact: Revenue will be paid to Raymond Memorial Golf Course and contribute to the sustainability of the Golf Division.

Benefits to the Public: This contract is necessary to provide food and beverage to the golfers and visitors at Raymond Memorial Golf Course.

Community Input/Issues: Golfers rely on the food and beverage daily for refreshments.

7. Clean Ohio Conservation Fund Grant Acceptance Round 15 (2312-2021)

Project History/Background: This ordinance authorizes the Director of Recreation and Parks to accept a grant and enter into a grant agreement with the Ohio Public Works Commission' Clean Ohio Conservation Fund in the amount of \$ 1,667,520 for the 2021 Clean Ohio Conservation Fund---Refugee Road/Mason Run Preservation and Cherrybottom Park Expansion—Capitol City Baptist and Venice Club.

In February of 2021, the Department applied for Clean Ohio Conservation Funds towards fee simple acquisition of three sites in Columbus, one along Big Walnut Creek in the Northeast area of the city, and two along Mason Run, in the city's Mideast Community (Ordinance 0330-2021), In May of 2021, the Department received notice that the grant was approved. This Ordinance would allow the Director to enter into the grant agreement with OPWC, accept the grant funding, and appropriate the grant and the city's share of the match funds. The three sites are:

Cherrybottom Park Expansion---Capitol City Baptist and the Venice Club (Two Sites)

Big Walnut Creek is considered one of the highest quality major waterways in Central Ohio. For several years, the north segment of the river has been a focus of Recreation and Parks to acquire and preserve valuable riparian corridor. The purpose of the project is to acquire two adjacent properties which would add 7.3 acres to Cherrybottom Park, a significant 90 acre parkland between Morse Road and St. Rt. 161. **Site #1---Capitol City Baptist**, will acquire a 3.25 acre tract of natural land along the top of a ridge overlooking Big Walnut Creek. **Site # 2---Venice Club**, will acquire a 4.1 acre tract of land directly along Big Walnut, including 450' of stream frontage, 750' of forested cliff side, and two high quality wetland areas. Acquiring these sites provides substantial long term preservation for water quality, forest preservation, protection of habitat, and future new public access for the neighborhoods along Sunbury Road.

Refugee Road/Mason Run Preservation

Mason Run is a primary tributary stream of Big Walnut Creek, from John Glenn Regional Airport to Winchester Pike at Three Creeks Park. This project would protect a substantial tract of 78.6 acres of land on the city's southeast side, between Refugee Road and Kimberly Parkway. The site contains approximately 56 acres of woodlands, and nearly 21 acres of open meadow and floodplain. Five existing access points surround the perimeter of the property. The spans of the site, from Kimberly Parkway to Refugee Road, is over ½ mile, placing almost 5,000 residents within a 10 minute walk. In 2007, the Department acquired an adjacent 21 acre conservation property along Mason Run, and in 2009, a 24 acres a natural area at the confluence of Mason Run and Big Walnut, bringing the total impact of nearly 1.25 miles of connected stream corridor protection.

Principal Parties:

Ohio Public Works Commission, Clean Ohio Conservation Fund
65 East State Street, Suite 312
Columbus, OH 43215
Clean Ohio Conservation Fund—District 3

Area(s) Affected: Rocky Fork/Blacklick (33), Mid East (57)

Fiscal Impact: This ordinance will require \$688,480.00 of City funds to obtain the \$1,667,520.00 awarded by the Clean Ohio Grant.

Clean Ohio Conservation Fund:

Refugee Road/Mason Run	\$1,008,000
Capitol City Baptist	\$195,840
Venice Club	<u>\$463,680</u>
Total Grant Funds	\$1,677,520

Local Match Funds	<u>\$ 688,480</u>
Total Project:	\$2,356,000

Emergency Justification: An emergency is being requested for this authorization as the Department has signed a purchase contract for the Refugee Road property (the largest transaction of the three) and the funds need to be available to meet the contract deadline.

Benefits to the Public: Protection of the city's high quality waterways, greenway corridors, ravines, and urban forests. Both projects are within rapidly urbanizing areas of the city, and preservation of key natural sites is one of the main missions of Recreation and Parks. Conservation of these sites proposed in this Clean Ohio project relies heavily upon outside funding assistance to achieve these benefits.

Community Input/Issues: During the past decade, residents in these communities, and the city at large, has expressed strong priority for more protected stream corridors, headwater tributaries, access to nature, walking paths, and urban forest conservation.

Master Plan Relation: Protecting the environmental health and resilience of the city's waterways; providing long term protection corridors for walking and biking and outdoor experiences. Improved and equitable access to trails and greenways.

Cherrybottom Park Expansion
Clean Ohio Conservation Fund 2021

Cherrybottom Park Expansion Project

Refugee Road Partners III Corp.
Refugee Road Mason Run

8. Burroughs Park Improvements - Construction (2313-2021)

Project History/Background: This ordinance will authorize the Director of Recreation and Parks to enter into contract with ProCon Professional Construction Services, Inc. for the John Burroughs Park Improvements Project.

John Burroughs Park, 551 S. Richardson Avenue, was built in 1997 in the Greater Hilltop area of Columbus. The greenspace is directly adjacent to the John Burroughs Elementary School on Sullivant Avenue, and is approximately one acre in size and used frequently by teachers and students as an outdoor classroom. The neighborhood park is also used for community gatherings, family outings, and special events. The park space is leased from Columbus City Schools, and maintained by school staff. Recreation and Parks provides the park amenity improvements for the green space.

In 2019, the Department met with school staff and Hilltop community stakeholders to discuss the condition of the park and prepare for the improvements plan. Special funding for the

improvements was made available by the Mayor's Office, and includes replacing the playground, a new loop walking path, new family shelter, fixing lighting, additional trees, new signage, and an interpretive panel about the legacy of John Burroughs.

Proposals were originally advertised through Vendor Services, in accordance with City Code Section 329, and on June 28, 2021 and received by the Recreation and Parks Department on July 20, 2021. Proposals were received from the following companies:

<u>Company</u>	<u>Status</u>	<u>Amount</u>
ProCon Professional Construction	MAJ	\$322,124.00
Tyevco Inc.	MAJ	\$331,996.24

After reviewing the bids that were submitted, it was determine that ProCon Professional Construction Services, Inc. was the lowest and most responsive bidder.

ProCon Professional Construction Services, Inc. and all proposed subcontractors have met code requirements with respect to prequalification, pursuant to relevant sections of Columbus City Code Chapter 329.

Principal Parties:

ProCon Professional Construction Services, Inc.
2530 Kingston Pike, Circleville, OH 43113
Kyle G. Wade, (740) 474.5455 kylewade@proconpcs.com
Contract Compliance Number: 31-1701026
Contract Compliance Expiration Date: 03/16/2022

Area(s) Affected: Greater Hilltop area (53)

Fiscal Impact: \$375,000.00 is budgeted and available to meet the financial obligations of this contract.

Base Bid:	\$322,124.00
<u>Contingency:</u>	<u>\$30,876.00</u>
Total:	\$353,000.00

Construction Inspection	\$20,000.00
<u>Prevailing Wage</u>	<u>\$2,000.00</u>
Total:	\$22,000.00
Total Project Costs:	\$375,000.00

Emergency Justification: An emergency exists to provide for the immediate preservation of the public property, and begin work during the Fall/2021 construction season.

Benefits to the Public: John Burroughs Park is an important neighborhood park for the Hilltop community. Providing improvements to the greenspace benefits the quality of life for school children, faculty, and the surrounding neighborhood.

Community Input/Issues: The Department met with the Hilltop Area Commission, Columbus City Schools, and key stakeholders involved with the park to determine the improvements needed.

Master Plan Relation: Burroughs Park area originally became a shared use area with Columbus City Schools in 1997 to offset an unmet need for parkland in this area of Columbus. Providing safe, accessible recreation and parks in underserved communities is a central priority of the City.

9. KNS Surveillance System Maintenance Contract (2314-2021)

Project History/Background: This ordinance authorizes the Director of Recreation and Parks to enter into contract with KNS Services Inc., 8450 Rausch Drive, Plain City, Ohio 43064 for parts and labor for the inspection and maintenance and repair of the department's surveillance camera systems.

K.N.S. Services, Inc. has provided surveillance system installation and repair for the department for many years. They also service many other city departments including Public Safety, Finance and Public Utilities. They have established a unique relationship with the Department of Technology to provide robust service to multiple departments in the city. The City of Columbus selected the Genetec software platform years ago for all departments to utilize for their surveillance systems with the vision of aggregating these services city wide. This effort has resulted in K.N.S. Services becoming the premiere provider of these services for several departments. The amount of infrastructure development, security clearance access and continued excellent support provided by this company leaves it as the only clear choice to continue logistical support for our systems.

CRPD owns 55 unique surveillance systems comprised of 508 cameras around the city. Most of these systems are on the Genetec platform which provides remote viewing, access management and organizational integration. In the past we have had several staff involved in keeping these systems monitored and repaired, in addition to the contract help of K.N.S. The task has simply become too great for our staff to keep up with and we need professional help in

the way of system function checks and priority service response. This contract accomplished that by have K.N.S. personnel do system function checks on our systems twice weekly and immediately dispatching to effect repairs on no-functioning components of the system. We will continue to ask our site managers to keep an eye on their systems and report issues.

This contract not only gets a quicker response time for repairs, but also makes available to us 24/7 access to an emergency response in the event of a serious crime occurrence if the system is having a issues of recall or playback. These are frequently network or hardware issues that require a trained technician to pullup video history. In addition, this contract will establish a more robust par stock of cameras, digital recording units, switches, etc. on the shelf for immediate deployment when failures occur within our system. We have had instances where delays in receiving replacement components has taken weeks leaving a system inoperable. The new par stock will minimize these extended downtimes.

Principal Parties:

K.N.S. Services, Inc.
8450 Rausch Drive
Nathan Bladen, 614-733-3880

Fiscal Impact: \$89,000.00 is budgeted and available from the Operating Fund (2285) and Voted Bond Fund (7702) to meet the financial obligations of this contract.

Six months of labor for system checks and repairs @ \$6,500/month =	\$39,000.00
Equipment for replacements as needed and stock (lump sum) =	<u>\$50,000.00</u>
Total	\$89,000.00

Area(s) Affected: City wide

Benefits to the Public: To provide higher reliability of all of our surveillance systems to assist our public safety department in minimizing crime in our parks.

Community Input/Issues: We have had hundreds of calls from citizens regarding safety in parks. This one tool to assist in that effort.

10. Agler Road Bridge Temporary Construction Easement (2317-2021)

Project History/Background: This ordinance authorizes the Director of Recreation and Parks to grant a temporary construction easement to the Franklin County Engineers for the reconstruction of the Agler Road bridge over Alum Creek.

The 0.117 acre temporary easement will be for 24 months, and allow for construction access to perform the reconstruction.

The Franklin County Engineers will be reconstructing the Agler Road bridge over Alum Creek, in the city's near northeast community. The Alum Creek Trail passes underneath this bridge along the east bank, however there is no access to the regional trail from Agler Road. For many years the public has requested that a trail connection be built from the roadway to the trail, and this County project will build an ADA accessible ramp leading from the roadway directly to the path. The County is also adding a new trail deck along the south side of the new bridge, from Sunbury Road to the Kipp School campus, which will provide new connectivity for the neighborhood.

The project is set to begin construction in early 2022. The Alum Creek Trail will be closed only for short intermittent periods during the 18 month project duration.

Principal Parties:

Franklin County Engineers
970 Dublin Road
Columbus, OH 43215
Ed Herrick, PE (614) 525-3300

Fiscal Impact: No cost

Area(s) Affected: Northeast (41)

Emergency Justification: Emergency action is requested as it is necessary to sign the temporary easement for the County to meet their federal right-of-way clearance deadline.

Benefits to the Public: Increased access for thousands of residents to and from the Alum Creek Trail, and providing access to a large school campus, and path completion to Sunbury Road and Cassady Avenue.

Community Input/Issues: The County did public engagement with the surrounding community and stakeholders in 2019 and 2020.

Master Plan Relation: This project will support the mission of the Recreation and Parks Master

Plan by improving access to trails and greenways corridors.

Figure 4: Bicycle and Pedestrian Infrastructure

Mock Road Greenway and Neighborhood Connections

Bicycle and Pedestrian Infrastructure - July 2021

11. Big Walnut Trail Drainage Easement/Refugee Road (2318-2021)

Project History/Background: This ordinance authorizes the Director of Recreation and Parks to grant a 0.062 acre drainage easement for the Kroger Company to drain storm water into the city's water quality treatment rain garden located at 4485 Refugee Road.

In 2020, Recreation and Parks completed a segment of the Big Walnut Trail, from Elk Run Park to Winchester Pike. As part of the project, the Department was required to provide a water quality and quantity feature for storm water runoff caused by the trail pavement. To accomplish this, the trail project built a rain garden in early 2021 behind the Kroger supermarket at 4485 Refugee Road to intercept their site's impervious storm water runoff from the building and parking lot. The final step of this water quality improvement is to provide the Kroger Company a drainage easement to maintain the 12" storm pipe entering city property and out letting into the new rain garden.

Principal Parties:

The Kroger Company
1014 Vine Street
Cincinnati, OH 45202

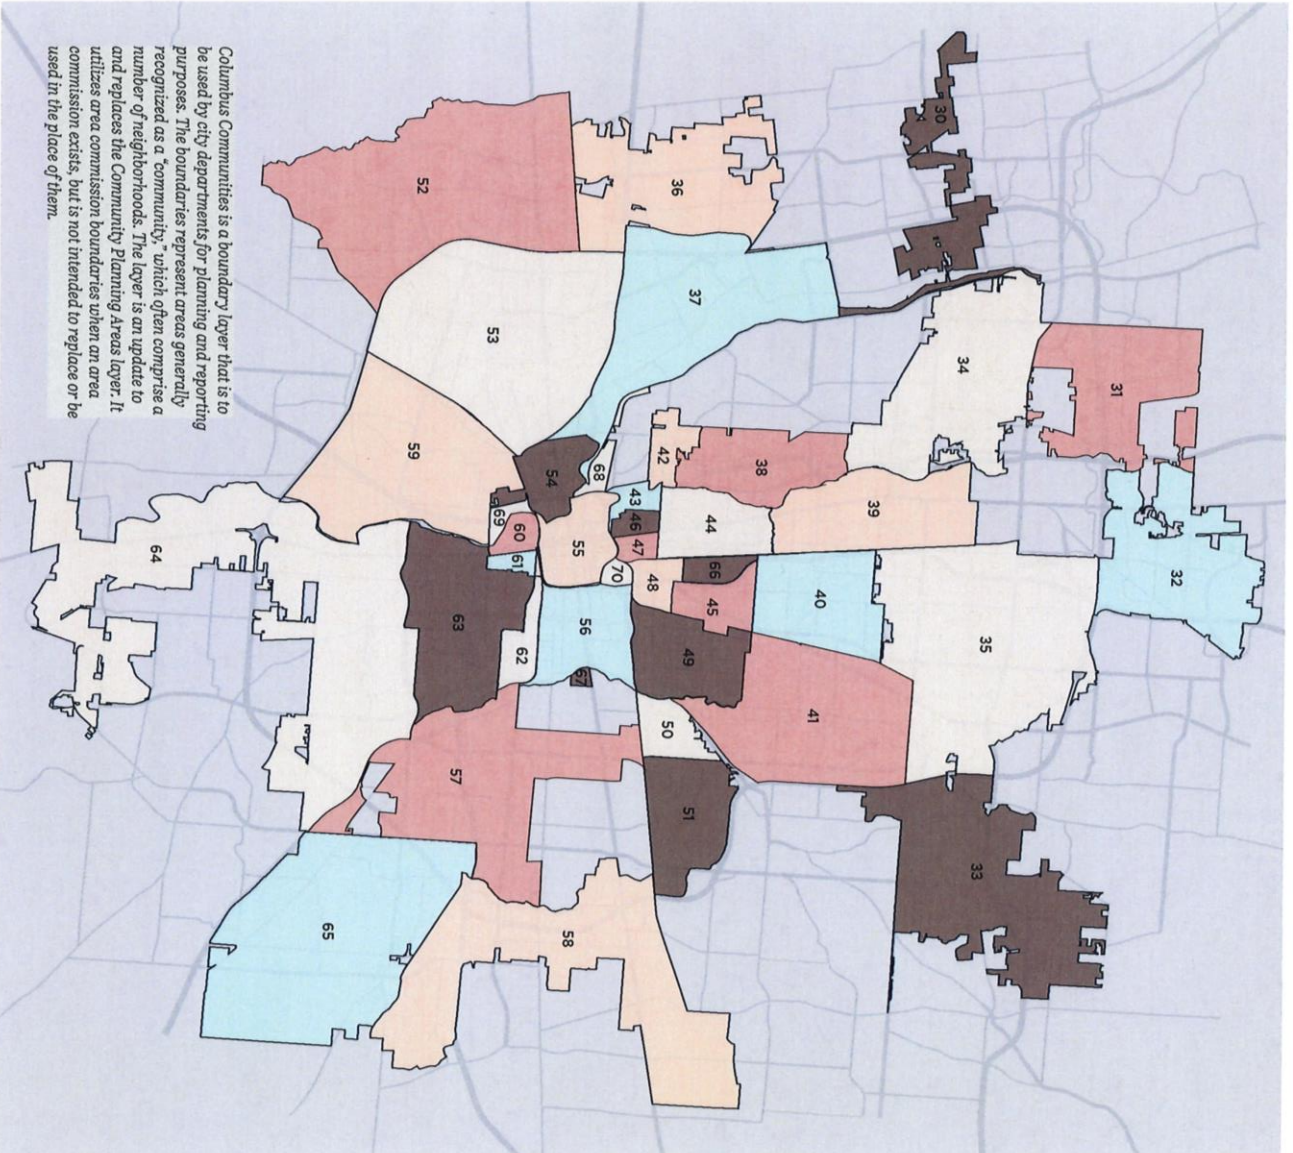

Fiscal Impact: No cost

Emergency Justification: Emergency action is requested in order to sign the drainage easement and complete construction of the storm pipe by October 15.

Benefits to the Public: Big Walnut Creek is one of Central Ohio's highest quality waterways. By treating the runoff from over 8 acres of impervious surface, a significant environmental improvement will be provided for the stream.

Community Input/Issues: Public engagement for the trail project was completed in 2019.

Master Plan Relation: This project will support the mission of the Recreation and Parks Master Plan by improving access to trails and greenways corridors.
